MICT Reports Financial Results for the Second Quarter Ended June 30, 2019

Conference call scheduled for August 14, 2019 at 9:00 a.m. EDT

Montvale, NJ – August 14, 2019 - MICT, Inc. (Nasdaq: MICT), today announced financial results for the three months ended June 30, 2019.

MICT's financial results for the first two quarters of 2019 include Micronet, Ltd. revenues for the months of January 2019 and February 2019 only. On February 24, 2019, Micronet closed a public equity offering on the Tel Aviv Stock Exchange which resulted in a dilution of MICT's ownership interest in Micronet to 33.88%. Thus, based on U.S. GAAP, MICT no longer includes Micronet's financial results in its consolidated financial statements effective as of March 1, 2019.

"We are continuing to pursue the BNN Technology acquisition, and are pleased to have entered into definitive agreements relating to MICT's largest series of funding to date pursuant to which the Company agreed with certain investors to raise a total of at least \$9 million, of which \$7.25 million has been received and the remaining \$1.75 million is expected in the next six weeks. As part of this series of financings, which consisted of dual offerings by MICT to separate investors to purchase convertible notes and preferred stock, respectively, BNN invested \$2 million in MICT through a convertible note to replace our existing creditor instruments on more favorable terms. Micronet, in which MICT holds a 39.53% voting stake, is showing strength, with \$3.6 million in sales contracts with current customers, which we believe is a clear sign of confidence and satisfaction from its customer base," stated David Lucatz, Chief Executive Officer of MICT.

On the call this morning, we have David Lucatz, Chairman, President and Chief Executive Officer of MICT, and Moran Amran, controller of MICT. And again, as a reminder, management will be referring to a slide presentation that can be accessed via the Investor Relations section of the company's site or the link in the press release.

We will start with an opening message from David, who will give an overview of business developments for the three months ended June 30, 2019. Then, we will move to review the numbers with Moran. I will now turn the call over to David, who will begin the presentation on slide 5. Please go ahead, David.

David Lucatz:

Slide 5 Thank you, good morning everyone.

During the second quarter of 2019, we continued to advance towards completion of the acquisition agreement that MICT entered into in December of 2018 with BNN, Paragonex Ltd., and a group of funders. Just after the end of the second quarter, in July 2019, we announced signing of certain definitive agreements relating to the offering by MICT to separate investors of convertible notes and preferred stock, collectively totaling \$9 million, with \$7.25 million of this amount already having been received by MICT and the remaining \$1.75 million expected in the next six weeks. The completion of \$7.25 million to date has served as a significant milestone for the Company.

Pursuant to the convertible note offering, BNN invested \$2 million in MICT, which instrument is contemplated to replace certain existing creditor instruments on more favorable terms.

Micronet Ltd., in which MICT holds a 39.53% voting stake, continued to receive sales contracts with current customers, which we believe is a clear sign of confidence and satisfaction from its customer base. Micronet's orders during the second quarter totaled \$3,600,000 for its 4th generation SmartHub hardware and its TREQ VMX platforms to existing customers, with \$90,000 of the orders being recurring revenue. In addition, Micronet believes that the development of its next generation advance technologies the Tab8 and the SmartCam is currently proceeding as planned.
